

## Let it Go, Let it Go, Let it Go

Well, the service contracts have ended,  
maintenance has been rescinded,  
and the circuits are ready to blow,  
so Let it go, let it go, let it go.

The hard drives show signs of stopping,  
and with power supplies a-popping,  
As long as we've got data to stow  
Let it go, let it go, let it go.

It was an awfully dusty sight  
to see our old Frames off the floor.  
And we all cheered in delight  
when the HP went out the door.

Reynolda's server room is silent,  
The EMC machines lie quiet.  
Just take them to the dumpster and throw  
Let it go, let it go, let it go.
